Abstract

The Pixel art Gallery allows general populace to access and view various pieces of curated pixel art in the comforts of their homes. More pixelated videos and artwork can be added in their respective pages to further expand the gallery. There is also a contact option where one can contact the curator for information or corrections.

The website has a home page where one can view pixel artwork with the next and previous buttons. Through the menu bar on the top, one can traverse through the videos and contact option. The video tab has various pixelated videos in a vertical flex arrangement. The contact tab has fields for first and last name, country, and subject. At the end of these fields lie the submit button.
